DETAILED ACTION

The indicated allowability of claim 3 is withdrawn in view of the newly discovered reference(s) to Carlisle et al., U.S. 2,465,060. Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 3 are rejected under 35 U.S.C. 102(b) as being anticipated by Carlisle et al., U.S. 2,465,060.

Carlisle et al. discloses an inlet (45; col. 4, lines 35-45) in communication with shoulders of a conical piston (38') that closes a port at the distal end of a channel (39) and having a nut (43) for adjusting spring (40) tension.

Allowable Subject Matter

Claims 2 and 4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 5-8 are allowed.
